

Diabetes

Your questions answered

List of questions

I. General concepts and diagnostic tests

Diabetes mellitus	2
Glycosylated haemoglobin (HbA1c)	6
Self-monitoring of blood sugar levels	7
How to take an insulin shot	9
Travel tips	10

01. What is the role of insulin in the human body? 11
02. Does consuming more sugar lead to diabetes? 11
03. What are the chances of my getting diabetes? 11
04. How do you diagnose diabetes by blood sugar levels? 12
05. What is oral glucose tolerance test (OGTT) and how is diabetes diagnosed? 13
06. Which is the most reliable diagnostic test for diabetes? 14
07. How do I confirm diabetes? 14
08. Is HbA1c a criterion to confirm the diagnosis of diabetes? 15
09. What is the significance of HbA1c test in non-diabetics? 15
10. What do my serum insulin levels indicate? 16
11. Am I prone to diabetes due to regular steroid intake? 17
12. Why do I feel weak and sweaty before meals? 17
13. Can antidepressants cause glucose intolerance? 18
14. What is the inheritance pattern of diabetes? 18
15. Why is there sugar in urine when my blood report is fine? 19

16. Am I diabetic? 20
17. Do I have diabetes? 20
18. Is diabetes an irreversible condition? 21
19. Does high blood sugar mean my mother has diabetes? 21
20. Will I develop diabetes later? 22
21. What are my chances of getting diabetes? 22
22. Why did my blood sugar increase after walking? 23
23. For how long should one fast before a blood sugar test? 23
24. Is it possible to have only high post-prandial (PP) sugar levels? 24
25. What are the tests for type 1 and type 2 diabetes? 24
26. What kind of diabetes do I have? 25
27. Do I have type 2 diabetes? 26
28. Do I have diabetes or is it just glucose intolerance? 27
29. Why are my fasting blood sugar levels more than post-prandial (PP) levels? 27
30. What is impaired glucose tolerance? 28
31. What does a high insulin count signify? 28
32. Why are my sugar levels fluctuating every day? 29
33. Can my sugar level come down with oral medicines? 29
34. How to get accurate blood sugar readings by a glucometer? 30
35. Can a glucometer give wrong readings? 30
36. How can one prevent diabetes? 31
37. Is an insulin inhaler available in the market? 32
38. Is insulin available in pen devices? 32
39. Why can't I get a good job if I'm a diabetic? 32
40. Please give me data about diabetics and hypertensive patients in India? 33
41. What is new in managing diabetes? 34
42. Do patients with diabetes need vaccinations for influenza and hepatitis B? 34

II. Type 1 Diabetes

43. What are the symptoms of juvenile diabetes? 36
44. Can excessive use of steroids induce diabetes in children? 37
45. Are my son's sugar levels high due to type 1 diabetes? 38
46. What is the reason for a sudden rise in blood sugar levels? 39
47. Should I marry a girl with juvenile diabetes? 39

48. Which is the best form of insulin for me? 41
49. Should I switch to a different combination of insulin? 41
50. Can I take Actrapid insulin at night? 42
51. Does pancreatic transplantation cure diabetes? 42
52. What is islet replacement? 43
53. What is the latest cure for type 1 diabetes? 43
54. What are recent advancements in the treatment of diabetes? 44
55. What is the cause of hypoglycaemia at night? 44

III. Type 2 Diabetes

56. Can stress cause diabetes? 48
57. How will diabetes affect my life? 48
58. Should I be worried about my blood sugar levels? 49
59. Why do my sugar levels stay high all the time? 49
60. What is the cause for sudden elevation in blood sugar? 50
61. Did my blood sugar levels increase due to exercise? 51
62. Why does a diabetic person lose weight? 52
63. Why is the PP blood sugar value higher than the fasting value? 54
64. How efficient is inhaled insulin for type 2 diabetes? 54
65. Is insulin safe for controlling blood sugar level? 55
66. Do I need to change my medicine for better diabetes control? 56
67. What is the optimum dosage of insulin for type 2 diabetics? 57
68. What is multiple drug therapy for type 2 diabetes? 58
69. How do I manage my impaired blood sugar? 58

IV. Drugs and diabetes

70. Can medicines prevent diabetes? 62
71. How can I reduce my sugar level? 62
72. Is my father taking the right medications for diabetes? 63
73. Why did my blood sugar level shoot up after taking medicines? 63
74. What is the significance of taking drugs before and after meals? 64
75. Do I need to take insulin for uncontrolled blood sugar levels? 64
76. Is it necessary for me to take insulin? 65

77. What are the various types of insulin? 66
78. What is the correct dose of insulin to start with? 68
79. I am fed up of insulin injections, please suggest an alternative? 69
80. Is lantus insulin better than Human Mixtard? 69
81. How should I control diabetes? 70
82. What are the common drugs for treating diabetes? 70
83. Are these supplements beneficial for diabetics? 71
84. Can diabetic patients take steroids? 71
85. Does glymy MP help control high sugar levels? 72
86. Is glucofast an efficient drug for diabetes? 73
87. Can I reduce my medication? 73
88. Can a diabetic patient donate his/her blood without affecting the recipient? 74

V. Lifestyle considerations

89. What diet and lifestyle pattern would protect me from diabetes? 76
90. What is the best way to live for a diabetic? 76
91. What are the steps to manage diabetes? 77
92. How can I get a better control over my diabetes? 78
93. What should be the diet for a diabetic person? 79
94. What should be my father's diet keeping in mind his sugar levels? 79
95. How can diabetes be controlled effectively? 80
96. What are the dietary recommendations for diabetes and hypertension? 81
97. What is the diet for diabetics? 84
98. What precautions should a diabetic take? 84
99. What are the recommended foods for diabetics? 85
100. What should be the special food habits? 86
101. Will my diet increase my post-prandial (PP) blood sugar levels? 87
102. How much carbohydrate and sugar can a diabetic take? 88
103. Can a diabetic fast for 36 hours? 89
104. Do fried foods raise sugar levels? 89
105. Is it safe for diabetics to drink red wine? 89
106. Can a diabetic patient smoke? 90
107. Is smokeless tobacco harmful for diabetics? 90

108. Is drinking alcohol harmful for a diabetic patient? 91
109. Can you suggest a balanced diet for the aged? 92
110. Can a diabetic eat mangoes? 93
111. Are artificial sweeteners harmful to the heart? 93
112. Are sugar-free tablets good for my diabetic mother? 93
113. Are sugar-free tablets safe for diabetics? 94
114. What kind of diet and exercise regime should my mother follow? 94
115. Can alcohol affect blood sugar readings in diabetics? 95
116. Does bitter gourd help in reducing blood sugar levels? 95
117. Does drinking excess water and taking honey help control diabetes? 96
118. Are regular walks sufficient to control sugar levels? 96
119. For how long should elderly men walk briskly? 96
120. Why did my blood sugar increase after walking? 97
121. Does exercise lower blood glucose level? 97
122. Why do my sugar levels stay high all the time? 97
123. I have diabetes mellitus, how can I improve my weight? 98

VI. Pregnancy and diabetes

Diet tips for pregnancy-induced diabetes 100

Artificial sweeteners 101

124. Am I suffering from gestational diabetes? 103
125. Am I pre-diabetic? 103
126. Do I have gestational diabetes? 104
127. I had diabetes during my pregnancy, will I get diabetes in the future? 105
128. Does gestational diabetes get cured after delivery? 106
129. Does gestational diabetes subside after delivery? 106
130. Will high sugar levels lead to problems in delivery? 106
131. What are the problems with pregnancy in a diabetic woman? 107
132. Can diabetes in pregnancy lead to pituitary hypoplasia in children? 107
133. Can I conceive if I have diabetes? 108
134. Does a diabetic face problems in conceiving? 108
135. Do high insulin levels interfere with conception? 109

136. What precautions do diabetic women have to take before conceiving? 109
137. What care do I take for gestational diabetes? 110
138. I have gestational diabetes; what precautions do I take? 110
139. How to manage gestational diabetes? 111
140. What diet should be taken for diabetes during pregnancy? 111
141. How do I maintain sugar levels in gestational diabetes? 112
142. How can sugar levels be controlled in gestational diabetes? 113
143. Can I have sugar-free drinks during pregnancy? 114
144. Are insulin injections safe during pregnancy? 115
145. Does optisulin prevent gestational diabetes? 115
146. Can I take glyburide during pregnancy? 116
147. Can natural remedies help to control diabetes in pregnancy? 116

VII. Complications of diabetes

Metabolic syndrome	120
Effect of diabetes on the vision (diabetic retinopathy)	122
Effect of diabetes on the nerves (diabetic neuropathy)	124

148. How can I avoid complications of diabetes? 128
149. How can my diabetic mother maintain her well-being? 128
150. Are my kidneys at a risk of getting damaged? 129
151. What is the first sign of failing kidneys? 130
152. How serious is my kidney problem? 130
153. Do drugs for diabetes damage the kidneys? 131
154. Will my father require dialysis? 132
155. How can I prevent kidney damage due to diabetes? 132
156. My mother has diabetes, how can her kidney problem be controlled? 134
157. How is chronic renal failure managed in persons with diabetes? 135
158. Do I have diabetic kidney disease? 136
159. What precautions should I take for chronic renal failure? 136
160. Can a diabetic with kidney problem go for a bypass? 138
161. Does diabetes affect the functioning of the brain? 138
162. How to bring diabetic neuropathy under control? 139
163. Is my leg pain due to diabetic neuropathy? 140

164. How can I control diabetic neuropathy? 140
165. Can anything be done for my mother's deteriorated organs? 141
166. Does diabetes affect the nerves in the feet? 141
167. What is the cause for tingling sensation in the legs? 142
168. Why do wounds appear on the legs of a diabetic patient? 142
169. What is the foot care in diabetes? 143
170. Is swelling of the feet due to diabetes curable? 144
171. How can infections be managed in a diabetic? 144
172. How are ulcers due to varicose veins in diabetics managed? 145
173. How can microalbuminuria be controlled? 146
174. What does the presence of albumin in urine indicate? 147
175. Can creatinine levels be reduced with medication? 148
176. How can one control high creatinine levels in diabetes? 148
177. Am I losing erection due to high sugar levels? 149
178. What is the treatment for erectile dysfunction due to diabetes? 149
179. Does diabetes lead to infertility? 150
180. Is impotence caused by diabetes curable? 151
181. Is there any relation between diabetes and vision? 151
182. Will my vision get affected due to high blood sugar? 151
183. I have developed minor retinopathy; what do I do? 152
184. What is the treatment for a diabetic eye problem? 152
185. What is the cost of laser treatment for diabetic retinopathy? 153
186. How can diabetes and hypothyroidism be managed together? 153
187. How can high blood sugar and hypertension be managed? 154
188. Can diabetes cause gas and indigestion problems? 155
189. Can diabetes lead to hearing loss? 155
190. Why is my father having hypoglycaemia? 156

Appendix

- I Diabetes management – it's not about popping pills 158
- II Your best partner in diabetes – your better half! 161
- III Cost of managing diabetes versus the cost of not managing diabetes 164
- IV Why test blood sugars – what has it done for me? 167
