9. Does the variation in the size of my breasts indicate cancer?	24
10. Are there any medicines to keep away breast lumps?	25
11. Is there any option of getting artificial breasts?	26
12. Why has my wife lost interest in sex after breast cancer surgery?	26
13. Does flax-seed oil help in the prevention of cancer?	26
14. Which herbs reduce the risk of falling sick?	27
15. Can Chinese products like Cessiac and Yuccalive cure cancer?	28
16. Can green tip bananas and aspirin help prevent bowel cancer?	28
17. Is wheat grass anti-cancerous?	29

18. Can *hing* (asafoetida) cause cancer? 30
19. Does yoga help in preventing recurrence of cancer? 30
20. How successful is hetero bone marrow transplant? 31
21. What is pleomorphic adenoma? 31
22. Can cancer in an advanced stage be cured? 32
23. Can a cancer patient donate his organs? 33
24. Why is cancer of the heart so uncommon? 33

### II. Genetics and other risk factors

25. Do gastric ulcers lead to cancer? 36
26. Do moles indicate cancer? 36
27. Does circumcision reduce the risk of cancer in women? 37
28. Can keloids turn cancerous? 37
29. Does pain in the testis cause bladder cancer? 38
30. What is atypical epitheliosis or gynaecomastia with atypia? 39
31. Can atrophic testes increase the risk of cancer? 39
32. Is the spot inside my lip cancer? 40
33. Do multiple lipomas lead to cancer later? 40
34. Does a low platelet count lead to cancer? 41
35. Is *H. pylori* infection a cause for cancer? 42
36. Do male kidney recipients run the risk of testicular cancer? 42
37. Do low blood cell counts indicate cancer? 43
38. Will a family history of cancer affect me? 43
39. Is cancer hereditary? 45
40. Can breast cancer be inherited? 45
41. What are the chances that my wife has inherited cancer? 46
42. Is cervical cancer hereditary? 47
43. Is cancer of the uterus hereditary? 48
44. Is lymph cancer hereditary? 49
45. Is my husband prone to getting cancer? 50
46. Is childhood leukaemia hereditary? 50
47. Is the lump under my skin dangerous? 51
48. Can pain and swelling in the breast be cancer? 52
49. Could constant breast pain be a sign of cancer? 53

### III. Diagnosis, vaccination

50. What does inflammation on a Pap smear indicate? 56

51. What does the CA 15.3 test signify? 57
52. What are the screening tests available to detect cancer? 57
53. What does my CA-125 level indicate? 58
54. Why is my mother's white blood cell (WBC) count so high? 59
55. Why have I been asked to undergo a PET scan? 60
56. Is endometrial biopsy used to diagnose cancer? 60
57. What does a high prostate-specific antigen (PSA) reading indicate? 61
58. Can a mammogram detect malignancy in the case of large lumps? 61
59. Is there a vaccination for the prevention of cervical cancer? 62
60. Is the Gardasil vaccine really necessary? 62
61. Do I need to take a vaccine for cervical cancer? 63
62. Is vaccination against cervical cancer effective? 63
63. Can one get cervical cancer after vaccination? 64
64. Can I take the vaccine for cervical cancer at 26? 64
65. Is Faslodex available in India? 64

#### IV. Cancers of the breast, bone, blood and prostate

Five steps of breast self-examination 68

##### Breast cancer

66. How to treat breast cancer? 70
67. Is my sister's breast cancer curable? 71
68. Is surgery essential for breast cancer? 71
69. How many chemotherapy sessions does my father need? 72
70. Must my mother undergo surgery for metastatic breast cancer? 72
71. Can advanced breast cancer be treated successfully? 73

77. How should bilateral breast cancer that has metastasized be treated? 78
78. What is the right treatment for ER/PR-positive breast cancer? 78
79. Will my mother's mastectomy be successful? 79
80. Should my mother take Xeloda for bone metastases in breast cancer? 80

## Cancer

- 81. How to manage a second breast tumour? 81
- 82. What are the chances of recurrence of breast cancer? 81
- 83. What is the prognosis for breast cancer? 82

### Bone cancer

- 84. How to treat bone cancer? 83
- 85. How to deal with unbearable pain due to cancer of the bones? 84
- 86. What treatment should a patient with multiple myeloma get? 85
- 87. How should one treat multiple myeloma? 85
- 88. What is the cost of Velcade therapy for multiple myeloma? 86

### Blood cancer

- 89. Will Glivec cure my father's cancer? 87
- 90. Will my son be cured of lymphoblastic leukaemia? 88
- 91. Which drugs are effective for chronic myeloid leukaemia? 89
- 92. Is acute promyelocytic leukaemia (APML) fully curable? 89
- 93. What causes chronic myelogenous leukaemia (CML) and how can it be treated? 90
- 94. Is Hodgkin disease stage IV fully curable? 92
- 95. Why does my WBC count keep varying with Hodgkin disease? 92
- 96. Can a person with acute myelogenous leukaemia (AML) lead a normal life? 93

### Prostrate cancer

- 97. Which drugs would be effective for my father? 94
- 98. Should I try brachytherapy for prostate cancer? 95
- 99. How useful is hormone therapy for prostate cancer? 95

## V. Other cancers

### Throat cancer

- 100. How to treat throat cancer which has blocked the food pipe? 98
- 101. Can a person speak after a throat cancer operation? 99

### Oral cancer

- 102. Will a third surgery for oral cancer help me open my mouth? 100
- 103. What is the last ray of hope for someone in the last stage of oral cancer? 101

## Brain cancer

104. Is my father's brain tumour cancerous? 102  
105. Why is my mother not responding to treatment for glioblastoma multiforme? 103

## Lung cancer

106. Is there any cure for non-small-cell lung cancer? 104  
107. How effective is chemotherapy for lung cancer? 104  
108. My father has lung cancer stage III B, give suggestions? 105

## Pancreatic cancer

109. Is surgery necessary for cysts in the pancreas? 106  
110. How to treat advanced pancreatic cancer? 107  
111. Is there any treatment other than chemotherapy for cancer of the pancreas? 107

## Liver cancer

112. What is the treatment for hepatocellular carcinoma? 108  
113. Is there any treatment for a liver haemangioma? 108

## Ovarian cancer

114. Is surgery necessary for ovarian cancer? 110  
115. What are the stages of ovarian cancer and its treatment? 110

## Oesophageal cancer

116. Is there laser treatment for oesophageal cancer? 112

## Colon cancer

117. What is the prognosis for recurrent colon cancer? 113  
118. Can cancer of the colon be treated effectively? 114

## Rectal cancer

119. What is the future of a patient with rectal cancer? 115

## Ureteral cancer

120. What is the treatment for a blocked ureter? 117

## Caecal cancer

121. What is the postoperative treatment for cancer of the caecum? 118

### Urinary bladder cancer

122. What is the treatment for bladder cancer? 119

### Gall bladder cancer

123. How to take care of a gall bladder cancer patient? 120

### Conjunctival cancer

124. How is conjunctival malignant melanoma treated? 121

## VI. Post-cancer care and diet

125. What precautions should one take after cancer treatment? 124  
126. What precautions do I have to take after breast cancer surgery? 124  
127. What is the appropriate diet for a stomach cancer patient? 125  
128. What food should a stomach cancer patient take? 126  
129. What is a soft diet appropriate for oesophageal cancer? 127  
130. What diet can prevent the recurrence of breast cancer? 130  
131. What diet can help to improve the Hb count of a cancer patient? 130  
132. What diet helps to increase the leukocyte count? 131

## Appendix

- The role of counselling 133
